"Logitrac is an outstanding tool to accurately measure all logistical data and tracking for the CVP fleet... We are now able to get customers in and out in less than a minute."

Eric Melendez
Customer Experience Manager

☒ Seamless, Contact-free Contracts

Streamline customer interactions with data-extraction and smart auto-population features that allow customers to be in and out in less than a minute. Contact-free and self-service abilities empower dealers to reach their customers whenever, wherever, and however they are most comfortable.

🔄 100% Cost Recovery & Nationwide Toll Coverage

Logitrac's core experience is designed around enabling dealers to instantly recoup their largest expenses. No more hiccups. No more delays. All fleet-related costs — **NATIONWIDE TOLLS INCLUDED** — can now be collected upon the vehicles return creating a transparent, hassle-free customer experience.

⚠ Alerts & Visibility

Logitrac's comprehensive alert structure encourages proactive fleet management opportunities. With location, time, contract, incident, and maintenance-based alerts, Logitrac eliminates the disconnect between dealer and fleet.

📊 Strategic Data

From individual vehicle data to an overall birds' eye view of your entire operation, Logitrac showcases program performance from the dealer perspective. With built-in KPI reporting, a one-two click system allows agile data to be manipulated and exported for informed decision-making and use in external programs.

"With Logitrac, we went from losing 7k-10k a month in fuel and toll expense to gaining close to 20k a month in revenue."

Scott Lyons
Service Director
